Re: Tucson Electric Power Company
Docket No. E-01933A-15-
Application for Approval of Revised Rider R - 3 for Net Metered Customers

On January 30, 2015, in compliance with Decision No. 74396 (March 19, 2014), Tucson Electric Power Company ("TEP" or "Company") timely filed its revised Rider R-3 MCCCCG with the Arizona Corporation Commission ("Commission") but mistakenly filed it in its 2014 docket (Docket No. E-01933A-14-0032). TEP hereby re-submits its filing and requests that a new 2015 docket be opened for this matter.

Set forth herein is a revised Rider R-3 Market Cost of Comparable Conventional Generation ("MCCCCG") calculation for approval by the Commission. Rider R-3 was last approved by the Commission in Decision No. 74396 (March 19, 2014) and sets the MCCCCG to be used in conjunction with Rider-4 NM PRS, Net Metering for Certain Partial Requirements Services. TEP proposes to revise the MCCCCG rate to update the anticipated avoided cost to be used for the Annual Credit for Excess Generation as defined in Rider-4 NM-PRS. A clean and redlined version of page 2 of the TEP Statement of Charges, which shows the rate, is attached.

The proposed MCCCCG rate of \$0.0263530 per kWh *decreases* the MCCCCG rate in Rider R-3, which will have the effect of decreasing the Credit for Excess Generation under the Company's Rider-4 NM-PRS. This credit is calculated and applied in the customer bill produced in October (September usage) or on a customer's "Final" bill.

TEP requests that the Commission approve the revised Rider R-3 to become effect on April 1, 2015. If you have any questions, please contact me at (520) 884-3680.

Sincerely,

Melissa Morales
